

WEIGHT LIMIT

We fly people with a body weight between 25 - 90 kg / 55 - 200 lbs.

Due to the lower weight, flights with kids / smaller guest below < 45 kg / 100 lbs can only take place during smooth air conditions in the morning. Therefore, always the first slot of the day is suitable (Mai to August 9 am EARLY BIRD).

FITNESS

Basic fitness, **physically agile!** You need to be able to take a few strong running steps in sloping terrain to takeoff. In case of any health problems we advise you to consult your doctor beforehand. In case of severe overweight or physical limitations participation is not possible.

LANGUAGES german, english

AGE LIMIT

6 to 75 years. Minors need the written consent of their parents (contract of carriage).

SHOES & CLOTHES

- sturdy shoes (hiking boots)
- gloves (hygiene, coldness)
- sunglasses (wind, UV)
- travel pant or jeans
- warming midlayer
- windproof jacket

CORONA REGULATIONS

- COVID certificate (vaccinated, recovered)
- FFP2 face mask

CABLE CAR TICKET

The cable car ride up the mountain is not included in the flight price. Your pilot will hold a discounted ticket for you (no queuing at the ticket office).

PAYMENT ON SITE

Email bookings, as well as extra services (Foto & Video Service, cable car ticket), are to be paid on site to your pilot: Cash, girocard, credit card, PayPal, Apple Pay, Google Pay, Samsung Pay.

WEATHER CONDITIONS

Flight Weather

Sunshine does not necessarily mean good flight conditions. Quite the opposite, a cloudy sky is not a bad sign at all. Often this is when the best conditions for flying can be found. Wind direction, wind speed and the air stratification are the decisive factors! If the weather forecasts are suitable, then our flight dates will take place as agreed (no contacting).

Weather-Related Cancellation

If the weather conditions predictably do not allow flights, then we will contact you one day before the scheduled date (please check your Email, SMS/WhatsApp). Please note that cancellations are due to safety reasons and this decision can be made even at the last minute. You will then have the option to reschedule or to receive a full refund (money / voucher).

§ CANCELLATION POLICY

Cancellation by FLY ROYAL

Cancellations due to weather conditions, technical or legal reasons are fully refunded. Vouchers remain valid or can be re-issued. Tickets are refunded 100% (money / voucher). Free of charge.

Cancellation by the participant

Cancellations have to be made in written form on time. The following fees and conditions apply:

- > 3 days prior to flight date = free of charge
- < 3 days or up to > 24 h = 50€ per flight
- < 24 Stunden = the full price / 100% is charged

TIME SCHEDULE

Please plan your flight day with adequate time. The entire experience takes about 1 1/2 to 2 hours.

REACHABILITY

Mobile on reception! In case of changes, delays or cancellations, we will inform you by phone.

POSSIBLE INTOLERANCE

Do not fly with a full stomach! If you are aware of travel sickness we recommend taking a travel tablet in advance. Please communicate any feeling of discomfort prior or during the flight to your pilot.

SPECTATORS

In our flying areas, the respective landing sites are the best spots for viewing the flights. At the cable car stations, companions must expect waiting times, which can only be bypassed by pilot and passenger (VIP entrance).

MEETING POINT

- **Tegelberg Mountain | Schwangau**
Tegelbergstrasse 33, 87645 Schwangau
Meeting point is our station at the Tegelberg landing site, directly at the access road to the Tegelbergbahn. Please come to the meeting point on time (appointment = meeting time).
- **Breitenberg Mountain | Pfronten**
Tirolerstraße 176, 87459 Pfronten
Passenger and pilot meet directly in front of the entrance area of the Breitenbergbahn valley station. Please come to the meeting point on time (appointment = meeting time).

ABLAUF

At the **meeting point** you will get to know your pilot. You will have with enough time to ask any questions you might have. After settling the paperwork you and the pilot start out for the **cable car**. Once you arrive at the **launch site**, your pilot will give you detailed instructions. After the **safety briefing** the flight equipment will be carefully fitted and the take off procedure practised. Now you need physical agility and determination. You determine the **take-off!** You will need to accelerate down a slope using your own power and must not stop running until the pilot tells you to. This is important for the success of a safe take-off. During the **flight** the pilot and the passenger can speak freely. The harness is safe and comfortable. The **landing** is soft and easy and is made either on foot (standing) or remaining seated in the harness (bum landing).

FOTO & VIDEO

Upon request we capture your flight on GoPro action cameras for you. Spectacular photos and videos convey an authentic on-board feeling and complete your one off paragliding adventure. Just book the Foto & Video Service with your pilot before the flight. You receive the memory card with all files to take home straight after the landing.

LET'S FLY!

We fly from April to October,
daily when suitable weather,
also on Sundays and holidays.

Fon daily 9 am - 6 pm: +49 160 90 33 96 82
